# WHO IS EMMA INTERNATIONAL?

EMMA International is a leading global consulting firm for the medical device, pharmaceutical, biotechnology, combination products, and diagnostics industries.

With a focus on quality, regulatory and compliance services, EMMA International helps ensure your products advance seamlessly from concept to approval.

When you need specialized services, such as building a Quality Management System (QMS) or remediation of major gaps and deficiencies, EMMA's experienced consultants will guide you toward a practical solution. We won't leave you with a foreign process or system that ultimately becomes unworkable. Our mission is to provide significant value to your operations and exceed your expectations.

## INDUSTRY FOCUS:

**Medical Devices**

**Pharmaceuticals**

**Digital Health**

**IVDs**

**Gene & Cell Therapies**

**Combination Products**

# FULL CIRCLE CONSULTING

EMMA International can be there every step of the way for your product! From product development to helping with QMS upkeep and postmarket compliance, EMMA is here to bring your product full-circle. The expertise of the EMMA team can help you get through the biggest quality and regulatory hurdles in the life science industry with ease.

As your regulatory partner, EMMA works within your corporate culture and alongside your team. While you focus on innovation and development, you can trust us to take care of the heavy lifting that results in permanent, meaningful improvements.
